

THE ALTERNATIVE INVESTMENT COMPANY

Aquila Capital develops innovative investment solutions for institutional investors worldwide. Since its founding in 2001, the owner-managed company has acted as a trustee for its clients and follows a holistic approach in the management of customized real and financial assets.

The Aquila Group's customers primarily consist of institutional investors in Europe and Asia. More than 250 employees at thirteen locations around the world work on executing efficient investment strategies in the form of fund structures and individual mandates. The Aquila Group includes both Aquila Capital Investmentgesellschaft mbH, licensed by the German Federal Financial Supervisory Authority (BaFin) as a capital management service company in Germany, and Alceda Fund Management S.A., authorised by the CSSF as an AIFM and UCITS management company.

For our headquarters in **Hamburg** we are looking for a

Power Research Analyst (f/m/d)

Your responsibilities

This role sits within the Merchant Market Desk

- Assume responsibility for continuous coverage of relevant power markets, initially focusing on the Nordics, Spain and Portugal, but also other countries where Aquila Capital invests in renewable energy
- Monitor power price forecasts of third-party providers, create meta-analyses and report to relevant internal stakeholders
- Observe policy/regulatory developments in relevant markets at EU and national level
- Maintain proactive contact with relevant market players to gather market intelligence
- Deliver qualitative and quantitative analysis in written or oral form
- Explain analysis to clients and other stakeholders (i.e. banks)
- Maintain and develop features of databases containing price information and relevant market reports

Your qualifications

- Experience of 4-6 years in relevant areas in power markets, preferably in business areas like (energy) consultancy, utility or banking (focusing on energy markets)
- Experience from energy, climate markets and change as well as capital markets/investment industry
- Analytical personality with motivation to understand the root of causes and relationships
- Critical and fast thinker, solid numerical ability and skillset to prepare and analyse data with relevant software skills
- Ability to adapt to continuous change and market conditions
- Excellent oral and written communication skills in English, understanding of Spanish and/or Portuguese is an advantage
- Programming skills in Python or R are appreciated but not a requirement
- Experience in SQL and or other non-SQL solutions (Mongo) is preferred

Your prospects

- A rare situation where a new team is set up and individual input, creative solutions and pragmatism is highly welcomed
- An extremely interesting investment company working at the forefront of climate change as one of Europe's largest investors on renewable energy and infrastructure
- Exposure to key market players in European energy and power markets
- Entrepreneurial environment with 'getting things done' mentality
- Active involvement, international work culture and responsibility from your first day on

We look forward to receiving your complete application, including your salary expectations and earliest start date, via our application system on www.aquila-capital.com/karriere
