

Investment Trainee Programme

Start date: October 2020

Aquila Capital is one of Europe's leading alternative investment firms. Founded in 2001, we develop sustainable investment solutions for institutional investors worldwide. With a proven track record in real asset investment solutions, we reliably manage a broad range of portfolios for our clients and invest in renewable energies, housing, green logistics, infrastructure, forestry and agriculture.

With a focus on sustainable and efficient investment opportunities, we aim to generate stable and long-term returns for investors. Sustainable investing is an integral part of our values and investment philosophy: with a track record of 13 TWh of green energy produced and a diversified portfolio of wind turbines, solar parks and hydropower plants, we provide electricity to 3.6 million households.

The opportunity

For tailor-made investment solutions our clients can count on, each of our projects is in the hands of specialised teams of multi-disciplinary experts. We are looking for highly motivated candidates to join the Aquila Capital team in our **Investment Trainee Programme 2020**.

Throughout the 15-month rotational programme, you will work in our Headquarters in Hamburg as well as other international locations, gaining relevant experience in key business areas across Aquila Capital.

Our commitment

As part of our **Investment Trainee Programme**, you will:

- Have first-hand insight into our core business areas, including investment management, asset management, product structuring, valuation, risk management, and investment controlling
- Develop and enhance the required skills and knowledge to play a part in a highly dynamic and forward-thinking industry
- Go through an in-depth orientation process to establish your strengths and interests and identify your individual field of expertise
- Find support at every step of the way, developing not only your technical understanding but also your competencies and interpersonal skills

Your experience

As an ideal candidate for our trainee programme, you have:

- Graduated from a higher education programme in business administration, finance, law or another business-driven discipline, preferably a Master's degree with a strong academic performance
- Some professional and/or internship experience, ideally in the field of finance or investment
- Worked or studied in an international and diverse environment

Your skills and interests

To thrive at Aquila Capital, you should be:

- Able to grasp complex business issues quickly
- Intellectually curious and eager to learn
- An entrepreneurial thinker with a global mindset and a passion for sustainability
- Good at working independently with superior self-management skills
- A strong communicator with a team mentality
- Professional, hard-working and proud to represent the company
- Fully fluent in English, ideally in German as well

Are you interested in advancing the energy transition? Can you see yourself as part of our diversified team of alternative assets experts? This traineeship provides you with the tools to fast-track your international career in a forward-looking, sustainable investment company. We look forward to receiving your application until **Sunday, 26 April 2020** via our careers portal on www.aquila-capital.de/career

Successful applicants will participate in a 1.5-day Assessment Center in Hamburg **at the end of May**.
