

Aquila Capital develops innovative investment solutions for institutional investors worldwide. Since its founding in 2001, the owner-managed company has acted as a trustee for its clients and follows a holistic approach in the management of customized real and financial assets.

The **Aquila Group** has been investing in renewable energies for over 10 years, transacting a portfolio of wind, solar and hydro assets over 3.4 GW across 12 countries since.

In Iberia, Aquila Group currently manages a portfolio, between development and operational stage, of over 1.0 GW, consisting of solar, wind and hydropower assets. Aquila Group has ambitious plans to further expand the footprint in the Iberian region.

For our offices in Lisbon and Madrid we are seeking

Project Manager E&I (f/m/d)

The Project Manager will focus in the execution in term, budget, quality, and security of Renewable Energy in the areas of solar PV and onshore wind projects:

Key responsibilities

- Manage all resources, including external ones, assigned to the project in order to control and report its status.
- Designate project responsibilities and the necessary resources for its execution.
- Coordinate and monitor the activities of the project team and the result of it, both technical and economic, with a strong focus on safeguarding the quality and security required.
- Identify potential issues, implement and monitor improvement and/or corrective actions project management wise (schedule, scope, cost, quality, safety).
- Participate in the procurement process for: 1) Work contracts; 2) Studies and projects; 3) Owner's Engineering or other Technical Advisory roles.
- Serve as relationship lead and technical controller for external partners such as service providers, developers, suppliers, etc.
- Report the activities' progress vs schedule, budget vs. actual analysis (together with a financial controller), contractual issues, and results of the project.
- Know and apply the policies and procedures of Aquila Capital.

Key requirements

- Higher Degree in Civil / Industrial / Energy Engineering or similar.
- PMI is a preferable complementary training.
- At least 4-5 years of experience, with a track record as Project Manager in renewable energy projects, ideally both, solar and wind.
- Fluent English.
- Geographic and travel availability within Iberia and sporadically to Hamburg.

Your perspective

As a forward-looking company, the Aquila Group combines focus, foresight, ambition and entrepreneurial responsibility with team spirit and a very high degree of collegiality. This creates synergies that, combined with the talents of our employees, are crucial for the long-term success of our company.
